HILLCREST GIRL HURT BY FALLING POLE

What was planned to be a merry flower-picking hike, ended with almost a fatal accident on Wednesday afternoon of last week, when Margaret, 16-year-old daughter of Mr. and Mrs. Dan Kyle, of Hillcrest, was struck on the back by a falling electric line pole.

The party of youngsters, consisting of Margaret and Catherine Kyle, James Kyle and Johnny Douglas, were hiking west of the Hillcrest mine, where they intended to pick flowers. However, they lingered around the old mine workings, having fun, when the rotted pole near them snapped at the base. Warning were shouted by the boys, but Margaret was unfortunately unable to get out of the way, the pole striking her across the back, knocking her unconscious.

The boys immediately called for aid and Dr. Rose attended the victim. Upon examination it was found that no bones were broken.

"HIS LORDSHIP'S DILEMMA"

The three-act farce comedy play, "His Lordship's Dilemma," staged by local talent in the Columbus hall on Monday and Tuesday nights, proved quite a success. The artists all performed well, and both audiences enjoyed the performances.

The following formed the cast: H. Pinkney as Lord Richard Sandridge; Norman Packer as Arthur Thompson, his secretary; Louis Pozzi as Captain "Tubby" Bannister; Donald McPherson as Carter, manservant; N. Packer as Detective Inspector Brown from Scotland Yard; Mrs. F. Lyons as Evelyn Lovelock; Miss L. Knapman as Lady Violet Elliott; Miss A. Hornquist as Sylvia Gayford, a widow; Mrs. McPherson, Mrs. Lyons, Miss Isabel Rae and Miss L. Packer, as Mrs. Gayford's servants. The play was directed by Mrs. J. A. Packer.

Singing of the "National Anthem" concluded the performance each night.

DISTINGUISHED SPEAKER AT BELLEVUE NEXT SUNDAY

Another distinguished churchman is to visit the Pass next Sunday, in the person of Rev. Dr. Peter Bryce, of Toronto. The four United Church congregations will hold one central service at Bellevue United church at 7.45 next Sunday evening. Friends, members and adherents would do well not to miss hearing this outstanding preacher.

Dr. Peter Bryce came to Canada from Scotland to attend college in preparation for the ministry. While engaged as a student pastor in a new industrial suburb in Toronto, he became actively interested in social problems and in social distress. His services to the cause of family welfare have been outstanding.

Dr. Bryce was the first president of the Family Welfare Organization for Toronto, which later developed into the Neighborhood Workers Association. As one of the leaders in organizing the community chest he became the first president of the Federation for Community Service. He was for years a staunch advocate of mothers' pensions, and became the first chairman of the Mothers' Allowance Board for the province of Ontario. He also organized the Fairchild Children's Home, an institution which cared for the children of families which were temporarily broken up.

All these activities were carried on in conjunction with a pastoral ministry in workingmen's districts, where he established a number of churches. His appointments came through first-hand knowledge of conditions, coupled with a grasp of possible betterments and a strong determination to stand by the people in their need. In his wider interest as a secretary of the United Church of Canada, Dr. Bryce has always stressed the social values of the work undertaken by various church organizations. While intensely Christian and evangelical in his outlook, Dr. Bryce has always held strong convictions as to the social duties of the ministry. He has met people of all classes throughout Canada and is willing at all times to study and give considered judgment of social conditions. In recent months he has made a strong and balanced pronouncement on the question of penitentiaries.

Further particulars about transportation will be found elsewhere in this issue.

COLEMAN LAD KILLED BY TRAIN

A sad accident occurred at Coleman about 4 p.m. on Saturday, when little Vladimir Soroff, aged nine years, was run over by a freight special, his leg being severed at the hip joint.

After the train had passed over him, still conscious, the little lad had courage enough to drag himself away from the tracks. He was picked up and rushed to the Coleman hospital, where he died a few hours later.

The lad is believed to have attempted to grab the moving train. The remains were laid to rest on Tuesday afternoon.

CROWS' NEST PASS TRUSTEE MEET

Delegates from all school districts in the association attended the annual convention of the Crows' Nest Pass Trustees Association, held in Greenhill hotel, Blairmore, last night; J. M. Allan, Coleman, presided, with W. H. Chappell, Jr., Blairmore, secretary. The election of officers resulted as follows:

President: William J. Cole, Bellevue; vice-presidents: J. M. Allan, Coleman; O. M. Olson, Blairmore; J. J. Murray, Frank; Peter Hagerty, Hillcrest; secretary-treasurer, W. H. Chappell, Jr., Blairmore.

Lack of inspections both in the public and high schools of the district brought forth considerable criticism and the matter will be brought to the attention of the department.

The schools of the Crows' Nest Pass will close for the spring term on June 29th, to re-open for the fall term on Monday, August 27th.

Teaching music in the schools has been discussed by the association for some time past and the idea was advanced by an extremely interesting and inspiring address on this subject by Inspector Owen Williams, of Lethbridge, with a brief history of the progress made in the schools of the province, and a sketchy outline of the different classes and phases of music, together with a review of the school and district festivals held the interest of those present. The speaker outlined the possibilities of teaching music in the schools of the Crows' Nest Pass, either by appointing a music director for the whole district, or appointing separate supervisors for each school. Members of the general committee of the Crows' Nest Pass Musical Festival and teachers interested in music in the school were invited by the association to hear Mr. Williams' address and before leaving the meeting expressed their appreciation for the opportunity given them to attend. Owing to the lateness of the hour no definite action was taken, but it is expected that a plan for teaching music to all the schools of the Pass will be decided upon for the fall term at the next meeting of the association, which will be held at Blairmore on Wednesday, May 16th. A hearty vote of thanks was extended to Mr. Williams for his able assistance and address.

William Kerr, Bellevue, and G. I. Cruikshank, M.L.A., Hillcrest, representing the Alberta Branch of the Amateur Athletic Union of Canada, presented a request for the affiliation of the District Athletic School Meet with the Amateur Union so that any outstanding performance and records would be properly registered and recognized. The association passed a motion favoring such affiliation.

A motion was passed favoring the appointment of unemployed teachers who are otherwise qualified for the marking of examination papers at Edmonton this summer in preference to teachers who are at present fully employed. This matter will be brought to the attention of the Department of Education.

MOTHER'S DAY SERVICE
The Mother's Day service in Central United church, Blairmore, will be held in the morning at 11 o'clock. Mr. J. Shevells, of Bellevue, will be the guest speaker. He will preach a Mother's Day sermon. All are cordially invited to attend this service to help make it the happy occasion it is designed to be.

A typographical error in our last issue made the name of Rudolph Yelik appear Rudolph Yelik. Our many readers will be glad to learn that Mr. and Mrs. Yelik are now settled down in their new home at Frank. We wish them well, and may all their troubles be little ones.

TRANSPORTATION ARRANGEMENTS FOR VISIT OF DR. BRYCE

The ministers of the United churches throughout the Pass are co-operating in their efforts to have a large congregation at Bellevue next Sunday evening at 7.45 to hear Dr. Peter Bryce. They solicit the help of members and friends of the respective congregations to make a central rally possible.

May we request car owners to fill their cars for this special gathering. If you are willing to take a car and are not filling it with your own friends, will you offer to take others?

The undersigned would be pleased if you would notify him if you will place your car at the disposal of the congregation.

Any people who would like to go to Bellevue, are asked to meet at the Blairmore United church not later than 7.15. Cars will be provided to take them. A. E. LARKY.

STRONG - RUMSEY NUPTIALS

St. Augustin's church was the setting of a pretty wedding on Tuesday, May 8, when Leslie Rosaline Rumsey, daughter of Mrs. J. J. Weaver, became the bride of Henry Ernest Strong, son of Mrs. Brander, of Calgary. The ceremony was performed by the Rev. P. C. Wade in the presence of a large number of relatives and friends.

The bride wore an attractive wedding gown of white satin, cut on modish lines, and carried a bouquet of pink roses. Her veil of net was caught in place with orange blossoms. Miss May Smith, of Lethbridge, was bridesmaid, wearing a smart frock of dull rose shade with hat to match. The groom was supported by his brother, Mr. Edgar Strong, with wedding music being supplied by Mr. Kenneth A. MacIure.

Following the wedding a reception was held at the home of the bride's parents at the R.C.M.P. barracks for immediate friends and relatives. Out of town guests in attendance included Mrs. Brander, of Calgary, mother of the groom; Mr. and Mrs. Norman Strong, Calgary; Mr. and Mrs. Bernard Bell and Mr. Clinton Rumsey, brother of the bride, Bellevue. Mr. and Mrs. Strong will take up residence at Calgary.

The annual dance and banquet of the Bellevue Branch of the Canadian Legion, B.E.S.L., held in the Oddfellows' hall at Bellevue on Tuesday night, was largely attended and a most enjoyable affair in every respect.

Simpler Problems Baffle Man

While world opinion is disturbed and distorted by threats of war and general unrest, while thoughts of budgetary deficits and problems of trade engage anxious minds at home, it is inspiring to turn to conquests of the physical universe which, from time to time, demonstrate man's ability to master infinitely greater problems than those which threaten his peace and prosperity. The statement may be trite and commonplace, but it is nonetheless true, that man's ingenuity in solving the riddles of the universe is in marked contrast with his apparent stupidity and futility in seeking solutions of others directly within his own purview and which, as a matter of fact, are his own creation.

The thought is suggested by recent addition to scientific knowledge of the atmosphere which is now known to consist of four layers—the troposphere, the stratosphere, the ozoneosphere and the ionosphere. The troposphere, the layer closest to earth's surface, is the stratum of changing temperatures and pressures and of wind-driven clouds. As long ago as 1899, it was discovered, by temperature tests, that this layer terminated relatively abruptly at a height of between six and seven miles. Beyond this height, the temperature was found to be relatively constant up to about 23 miles. This layer of calm, cloudless air of uniform temperature is the stratosphere of comparatively recent conquest by balloon ascension.

As this is written, a prairie dust storm obscures the sun, and, as a result, there is a marked fall in temperature. It is palpably cooler. It happens that calculations concerning dust shot into the stratosphere by volcanoes prove similar cooling effects. If one seven-hundredth of a cubic mile of the dust were blown into the stratosphere it could form a screen which would reduce the intensity of the sun's rays by 20 per cent. The screen would remain suspended in that still windless zone for years, and it has been suggested that the ice ages have been caused by such volcanic dust-screens.

Recent research has shown that, above 23 miles and extending up to 38 miles, is another layer rich in ozone and, for that reason, called the ozoneosphere. The significance of this layer so far as human history is concerned, lies in the fact that, because it is absorptive of ultra-violet rays from the sun, the earth is adapted to human habitation. Without this screen, it is said, organic life on earth would be wiped out by sun-stroke.

The ozoneosphere, unlike the stratosphere, is not cold but hot. Above it and beginning at 50 miles, lies another layer, the ionosphere, so-called because the gasses of the air in that region are in an electrically excited or ionized state. The secrets of this stratum are yielding to radio research although its existence had been deduced, long before the advent of the radio, to explain some of the earth's magnetic phenomena. The ionized particles have the property of reflecting radio waves back to earth and it has been revealed there are two main layers in the ionosphere, at 64 and 112 miles respectively, which reflect these waves. Each of these is split into two during the daytime making a total of four layers. These four layers probably mark the heights at which particular constituents of the atmosphere become electrified or ionized.

Recent research has further demonstrated that the electrification in the layers is more intense in summer than in winter, the condition being normal due to ultra-violet rays from the sun. Thunderstorms also play their part, it having been calculated that the electrical energy continually released in thunderstorms is more than sufficient to produce all the observed ionization in the ionosphere.

That scientific minds applied to investigation of the seemingly inaccessible have produced so much positive achievement is in striking contrast with the meagre fruits of the efforts of politicians, statesmen, economists and "brain trusters" to solve the problems of man's social and economic relationships. It suggests the thought that, were scientifically trained minds set freely and independently to work, by universal agreement, upon the problems which seem destined to perpetuate embittered hatreds between peoples of kindred cultures and similar aspirations, their solution quickly would be forthcoming. The rest would be up to us.

FINE QUALITY TEA ALWAYS ECONOMICAL

Packers of the finest teas such as "Balada" have been forced to increase prices. As soon as merchants' stocks at present low prices are depleted your favourite beverage will cost you slightly more. This has been brought about by advances at the gardens where production has been purposely restricted in order to keep the growers from further disastrous loss. But this comforting beverage is still the cheapest drink in the world next to water itself.

Charting Coast Of Labrador

British Naval Surveying Ship Challenger Engaged Work

The British naval surveying ship Challenger, has sailed from Portsmouth to resume her task of charting the coast of Labrador. This work has never been completed. Last year the admiralty started the task longer upon the work because it has become necessary to provide safe channels for navigation along this dangerous coast owing to the development of Labrador. The survey will take years to complete.

A new type of plane with folding wings may be stored in a small space.

Weariness—Sleepless Nights Wrack the Nervous System

Men and women too often sleepless nights. Their eyes do not close in the refreshing repose that comes to those whose nerves are right. They are irritable and nervous, weak and worn out, and everything looks dark and gloomy. Milburn's H. & N. Pills is the remedy that is required to restore them the blessing of good health. They bring back the sound refreshing sleep up to the nerves, and impart that sense of buoyancy to the spirits that is the result of renewed mental and physical vigor.

Russian Aviators Have Completed Big Task

Rescued 101 People From Floating Ice Off Siberian Coast

Two months ago 101 Russian aviators were wrecked on floating ice between Wrangel Island and the coast of Siberia. Since that time the efforts of Russian aviators in rescuing the 101 a few at a time has held the interest and admiration of the world. The task was recently completed. Not a life was lost.

Moscow, aware of the rich mineral resources of this Arctic island whose inaccessibility has become proverbial, rashly determined to populate it with permanent colonists. Of the 101 there were ten women and two children. After their ship had been crushed, the aviators, who had plenty of food and fuel, built living quarters on the ice and were not uncomfortable in spite of the sub-zero temperatures. They suffered little, but they were constantly in peril, for the breaking up of the ice might bring death at any moment.

The organization of the relief work was thorough and systematic, and its success is a tribute both to the skill and to the indomitable courage of the Russian aviators. It is not without reason that Moscow is celebrating, and praising the efficiency of Soviet organization, the hardihood of the marooned men and women, and the devotion and ability of the rescuers. One Moscow newspaper comments, perhaps with reason, that if the disaster had occurred in the days of the czars the Wrangel colonists would have perished while bureaucratic officials argued as to what department should undertake the rescue.—Cleveland Plain Dealer.

CAST OFF UGLY FAT Woman Loses 28 lbs. in 3 Months

"Three months ago," a woman writes, "I was persuaded to try Kruschen Salts to reduce my weight, which was 222 lbs. I had tried other things, but all to no avail. Now I know that Kruschen Salts are different. In three weeks I lost 6 lbs., and I felt five years younger. I really must say I feel a different woman. I have now lost 28 lbs. to date." (Mrs.) S. C. B.

If you are overweight take one half-teaspoonful of Kruschen Salts in a glass of water before breakfast every morning. There will be no rapid or alarming loss of weight, but a steady decrease of that fatty fat which is as unhealthy as it is unsightly. Kruschen is a scientific blend of six mineral salts found in the waters of those European spas that have been used by generations of overwrought people to reduce weight.

Got Post War Job

Showed One-Armed Man Who Did Great Things For England

The story how Sir Edward Hilton Young, minister of health, who lost an arm in the 1918 raid on Zebrugg, got a post-war job with the admiralty was told in a speech by Lord Riddell. Sir Edward, Lord Riddell said, came back from active service and sought a position with the admiralty only to be told there was "no room for a one-armed man."

Sir Edward, he said, retorted: "Well, come with me to Trafalgar Square and I'll show you a one-armed man who did great things for England."

That, concluded Lord Riddell, was too much, "even for the admiralty," and one of his critics replied: "If you are another Nelson we will take you on."

Deep Sea Exploration

Diver Will Spend Six Months Studying Fish In Ocean's Depths

Even though he plans to drop 3,000 feet down into the depths of the ocean in a diving glove, William Beebe doesn't expect any sea serpents.

"I saw one once," he said, a grin wrinkling his weathered face. "Then I took a second look. At first glance, it was a tremendous sea serpent writhing away into the horizon. It turned out to be the Atlantic cable." Mr. Beebe was making last preparations for his departure for St. George, Bermuda, where he will spend six months studying deep sea fish and the strange, weird lives they lead.

When the farmer is prosperous, all the world is prosperous. That, however, is a fact which too few people and too few governments have learned to appreciate.

Under the new Rights-of-Way Act in England tens of thousands of footpaths have been given almost the status of highways.

King George V. hasn't read in bed since he was a boy.

Agricultural Notes

Many Items Of Interest To The Western Farmer

For the third successive year, Australia has dominated the China wheat trade.

The amount of branded beef sold in Canada during the month of March was 3,890,023 lbs.

United States wheat in store in Canada on April 6 totalled 2,228,643 bushels compared with 6,358,692 bushels at the same date last year.

Article 6 of the Ottawa/Conference agreement provides a market outlet for every year for 280,000,000 pounds of Canadian bacon and hams of good quality.

For selling eggs unit for human consumption in Toronto, an Ontario dealer was fined 25 dollars and costs. The eggs were incubator eggs showing advanced stages of incubation.

The control of grasshoppers is assumed as a provincial responsibility but the Dominion government which maintains entomological laboratories of the Dominion Department of Agriculture in each province co-operates fully with the provincial forces.

The growing of winter wheat in Ontario is confined very largely to the southwestern section of the province. Most of the winter wheat grown in this section belongs to the class of White Winter, whose chief variety being Dawson's Golden Chaff.

Applies in 1933 topped the list of Canadian commercial fruits with the preliminary estimated value of \$9,390,700, followed by strawberries, \$1,854,200; peaches, \$1,100,300; raspberries, \$738,100; grapes, \$652,300; cherries, \$542,000; apples, \$473,300; plums, \$238,400; and apricots, \$68,000.

The total value of commercial fruit production in Canada in 1933 is estimated preliminarily at \$15,024,900 as compared with \$11,989,900 in 1932. Ontario contributed \$5,354,500; British Columbia, \$5,206,000; Nova Scotia, \$2,894,000; Quebec, \$1,398,600; and New Brunswick, \$171,800.

Common potato scab occurs in practically every potato-growing country of the world. In this respect, Canada's enormous potato seed industry has the advantage of the knowledge of this disease accrued by the pathologists of the laboratories of the Dominion Department of Agriculture, particularly at Charlottetown, and Fredericton, N.B.

The nine official hog grades included in the regulations regarding hog production in Canada seek to separate the different types, weights, and qualities of hogs in accordance with their average market worth.

That the quality of meat in the main is by consumer demand and the selling values of the commercial cuts from the carcasses of the different grades. It is a common impression that it takes a great deal of time and hard work to make ice cream. Such is not the case. It is a simple matter to mix the ingredients and, if the cream is at least 24 hours old and if the salt and ice are used in proper proportions, it is a matter of 15 to 20 minutes only before the freezing process is completed.—Home Made Frozen Desserts Bulletin, Dominion Department of Agriculture.

New tax rate in Belfast, Ireland. King Prapadipok of Siam has a country estate at Towanda, Pa.

Some people confuse thinking with worrying.

It is not a wise thing to tell people how smart you are.

BABY'S OWN TABLETS Relieved

"Baby's Own Tablets have been the only medicine my four children have ever had. In no instance has it been necessary to consult our doctor." So writes Mrs. Harry Pliner, Cumberland Head, N.B. "When the baby or young child loses appetite, is sleepless or restless, has colic, vomits, or is constipated, cold or diarrhoea or teething pain, give Baby's Own Tablets for safe, quick relief. Price 50c at all drug stores. 20c Dr. Williams'."

Canada's Bill For Education

Public Expenditure Of About One Hundred And Sixty-Five Mill.

Public expenditure on education in Canada amounts to \$63.63 a year for every student attending school. A recent report issued by the Canadian government shows that education involves a public expenditure of about \$165,000,000 yearly.

Education in Canada is under the control of the provinces, except for the task of instructing the Indians who are wards of the Dominion government. The provincial governments have made ample provision for primary, secondary, and higher education. In each province there is a complete system of public and high schools, aided by the government with liberal grants, while in each province there is also one or more universities where, in addition to the courses in arts and science, there are faculties of medicine, law, and dentistry. Technical schools and agricultural colleges, where those who desire to specialize along these lines may have an opportunity to fit themselves for their life work, are found in every province.

In 1932 there were 32,901 educational institutions in Canada employing 86,216 teachers and attended by 2,693,116 pupils, almost 25 per cent. of the whole population.

Where Talent Is Developed

Individuality Of Members Brought Out In English Institutes

People talk of the equality of mankind, yet nothing is so absurd as the equality of mankind, declared Mrs. J. C. Douglas, president of the Southampton, England, branch of the British Women's Institutes, when she was entertained in Edmonton. "It is the inequality of mankind that is the destructive and all-important factor in human affairs," Mrs. Douglas went on. "This is particularly noticeable in our English Institutes, where diversity is the very essence of our unity."

"Immediately a member enters the door she becomes a member of the Institute and nothing more. The character of the member has nothing to do with her background, and for this very reason, hundreds of women are discovering themselves to have undreamed-of talents. Every member does something different. Each is encouraged to develop her own individuality, and herein lies the success of the movement."

Rafferty: "The new boss of the factory'll be an old-fashioned man. I think."

O'Hara: "He's so old-fashioned he will be taking the belts from the drive wheels and replacin' them with suspenders."

Husband: "Why did that woman keep you standing at the door for half an hour?"

Wife: "She said she hadn't time to come in."

As a matter of fact, your neighbors think just as disagreeable things about you as you do about them.

Canadian macaroni and vermicelli last year made an entrance into Holland for the first time.

Light Clothes For Warmth

Several Layers Better Than Small Number Of Heavy Ones

Very thick, heavy garments are not so helpful in enabling one to keep warm, as might be supposed. A far better way to defy the cold is to wear a larger number of light ones. The late Lord Kelvin was a great believer in this method. On one occasion when he was making tests of his sounding machine on a battleship on a bitterly cold day, he was asked why he did not wear an ulster. His reply was that he did not need one. The colder the weather, the more thin underests he put on, and the air between them insulated his body from the freezing winds. Many fishermen have also found that several layers of light garments are more useful than a small number of heavier ones, and set accordingly when facing the intense cold frequently encountered on their winter fishing trips.

Seems Hard To Solve

Perhaps there ought to be a happy medium between the methods of young scientific students of babies and the methods of their grandmothers. A Baltimore specialist condemns the modern method which leaves babies too much alone. It is curious that after several hundred thousand years' experience the human race has not come to definite conclusions as to how babies should be brought up.

If an automobile is driven continuously at 60 miles an hour tires last just half the mileage as at 35 miles.

Too Much "Party" Last Night

Too Much Food, Late Hours, Smoky Atmosphere

YET—This Morning No "Acid Headache"—No Upset Stomach

Scientists say this is the QUICK-EST, SUREST and EASIEST way to get rid of "FEELING THE EFFECTS OF OVER-INDULGENCE" the most powerful acid neutralizer known to science is used in this.

TAKE—2 tablespoonsful of Phillips' Milk of Magnesia in a glass of water BEFORE bed. In the morning take 2 more tablespoonsful with the juice of a WHOLE ORANGE. That's all you'll feel great.

Or take the equivalent amount of Phillips' Milk of Magnesia tablets. Each tablet is equal to a teaspoonful of the liquid.

Get genuine Phillips' Milk of Magnesia in the familiar liquid form, or the new, marvelously convenient tablets. Be sure it's PHILLIPS'... the kind doctors endorse.

W. N. U. 2045

HAS PLAN TO SPEED UP MONEY CIRCULATION

Ottawa.—A picture of money circulation, speeded up to a breath-taking pace with all transactions settled on the spot, by use of currency bearing demurrage tax was unfolded before the house, banking and commerce committees. The sponsor of the scheme was E. S. Woodward, national executive secretary of the Free Economy League of Canada.

Mr. Woodward was a volunteer witness and was given 40 minutes to state his plan. His suggestions were received with lively interest and considerable incredulity.

He would substitute for the present currency an issue of money upon which the holder would be required to affix a stamp valued at one per cent. of the face value of the money on the first day of each month. Metal money would be turned in for re-minting at the end of every year and a small minting charge made.

In this way there would be an extraordinary tendency on the part of the holder of money to get rid of it, resulting in rapid turnover, spot settlement for every transaction, and a substantial revenue to the government from the sale of tax stamps.

Savings accounts would be exempt from the tax but would not bear interest. Mr. Woodward said it was the belief of the advocates of the stamp script system that the result would be to bring back employment that would be so well paid that much leisure would be possible for all, decreasing interest rates, low taxes and decreased business overhead.

The sponsor said it was in vogue for six centuries in Europe during the Middle Ages and brought a "golden era" of prosperity, construction of beautiful cathedrals and public buildings and work at high wages.

It would in no material way interfere with present financial procedure nor the operation of banks. No inflation would result as the quantity of money in circulation would not be increased, and might be decreased if necessary.

Should the spending on circulation attain too great a velocity, the stamp charge could be decreased, and if the velocity were too slow the charge could be increased.

Newspaper Radio Association

Papers Owning Broadcasting Stations

Form Organization

Toronto.—The Canadian Newspaper Radio Association, an organization of newspaper owners of radio stations, was formed in Toronto. The organization is Dominion-wide, and will act in all matters of "mutual interest" according to an announcement.

Officers are: President, Charles Toman, London; vice-president, Howard P. Robinson, Saint John; secretary-treasurer, Philip Morris, London; executive, F. J. Burd, Vancouver; O. L. Spencer, Calgary; Victor Sifton, Regina; and A. W. Robb, Halifax.

Would Increase Army

Paris.—France's army may grow bigger, it was learned through a project for lengthening the military service of conscripts. The great force numbering nearly 1,000,000 men that France had when war came in 1914 was shrunk to half that strength, and members of the general staff assert that the German army is numerically superior to the French.

Currie Scholarships

London, Ont.—Establishment of two scholarships at the University of Western Ontario in memory of the late Sir Arthur Currie, commander-in-chief of the Canadian corps in France, and principal of McGill University, was authorized by the board of governors of the Ontario institution.

Treaty Remains In Effect

London.—The British government has no present intention of taking steps to terminate the Washington treaty limiting naval armaments before its natural expiration, Captain Anthony Eden, lord privy seal, announced in the House of Commons.

Ontario Fall Wheat Damaged

Toronto.—In practically all sections of Ontario fall wheat has been damaged extensively by a severe winter, floods and frosts and in some cases 90 per cent. of the crops have been killed, the provincial department of agriculture reported.

W. N. U. 2045

Flood Causes Heavy Damage

People Of Fort Vermillion Forced To Vacate Homes

Fort Vermillion, Alta.—The entire population of Fort Vermillion was forced to flee to the hills to escape flood waters from the Peace river, caused by ice jam just above the town. The houses were completely wrecked, buildings inundated, telegraph towers crashed by ice and thousands of dollars damage done to property and livestock as a great wall of water swept over the town at 4 a.m. Fort Vermillion is about 250 miles north of Peace River town on the Peace river.

The entire population spent the night camped in the hills watching the devastation of their homes going on below them.

On the south bank of the river, men of the settlement hastened to rescue children from the mission with teams and wagons, but within a few minutes the teams had to be abandoned and boats were used as the swirling water flooded the ground floor.

Battering ice cakes crashed into telegraph towers on the north side until they gave way before the impact and were swept away in the tide.

Fort Vermillion settlement has a population of about 300 persons. The population of the district is about 1,500.

Farm Credits

Premier Brownlee Of Alberta Confers With Dominion Officials

Ottawa.—Hon. J. B. Brownlee, premier of Alberta, and Hon. George Howley, his minister of agriculture, were in consultation with Dominion government ministers and officials, particularly in respect to the forthcoming legislation dealing with re-financing of farm credits and amendments to the bankruptcy laws.

Pressure of other business has delayed appearance of this legislation, announcement of which was made some weeks ago. It is a measure of far-reaching ramifications, involving as it does the bankruptcy and mortgage legislation of the provinces.

Mr. Brownlee will be in Ottawa for some time.

Relief For Veterans

Seven Thousand Dollars Voted For Aid For Saskatchewan Command

Ottawa.—Seven thousand dollars for immediate relief among veterans of Saskatchewan was voted at a meeting of past Dominion presidents and presidents of provincial commands of the Army and Navy Veterans in Canada, meeting here.

The money will be made available at once, and distribution to applicants will commence on the arrival at Saskatoon, next week, of Col. H. W. Arnold, president of the Saskatchewan provincial command.

It was Col. Arnold who presented the claims of distressed veterans of Saskatchewan and the urgency of immediate assistance at this time.

Canadian Wheat For Japan

Dominion Sold Japan Wheat To Value Of Three Million Dollars

Last Year

Montreal.—Although Japan buys most of her wheat from Australia due to the latter country's lower rate of exchange Canada nevertheless sold Japan \$3,000,000 worth of wheat last year, Hon. Herbert Marler, Canadian minister to Japan, stated here.

He thought it would be many years before Manchuria loomed as a serious competitor in the world's wheat markets. Last year, he pointed out, Manchuria produced about 60,000,000 bushels of wheat, sufficient only for the Harbin area.

Tornado Kills Twenty

Calcutta, India.—Twenty persons were killed, hundreds injured and a dozen were reported missing after a tornado swept the town of Sylhet in the province of Assam. Native houses were blown away and many small craft on the Surma river foundered.

Coming To Canada

Sydney, N.S.W.—Stanley M. Bruce, Australian high commissioner in London, started May 3rd on a journey which is taking him to Ottawa and Washington to discuss world wheat production and other matters with President Roosevelt.

Stamps Bring Big Price

London.—At the auction sale of the 18th stamp collection, two Canada 12s stamps, black, 1821 issue, were sold for 41,400. Eight years ago at the sale in Paris of the Ferrar collection, these two stamps were bought for 425.

B.C. Liquor Revenues

Increase Is Shown For Months Of January and February

Victoria.—British Columbia liquor revenues showed an unexpected gain of 25 per cent. in both January and February, and 40 per cent. in March over the corresponding figures of last year, figures available revealed.

Liquor estimates for the fiscal year commencing April 1, 1934, had been placed at \$300,000 less than in the same period last year, but current indications are that they will be up instead of down.

Increased purchasing power within the province is believed responsible.

SOME CHANGES MADE IN GOLD TAX APPLICATION

Ottawa.—The government brought relief to non-dividend paying gold mines, placer miners and producers of low grade ore, by announcing that the proposed tax on gold would not apply to them. The question of constitutionality of the tax, if any existed, was dealt with by changing the procedure to place a 25 per cent. tax on the premium paid instead of 10 per cent. tax on production.

As a further guarantee against anything in the nature of double taxation the gold mine companies will be permitted to credit their corporation income tax against the gold tax. The tax, which will run from April 1 of this year to May 31, 1935, will not apply to any company not now paying dividends, nor to any company which did not pay dividends prior to January 1, 1933.

In no case will the tax operate when the premium is such that the price to the producer is less than \$30 an ounce. This was the same provision placed in the original proposal.

Announcement of the change was made by Prime Minister R. B. Bennett. He referred to the protests that had been raised against the tax, particularly in Ontario, and to the charges that the tax was unconstitutional.

There was no question in his mind as to the power of the government to impose the tax, Mr. Bennett said, and he referred to section 91 of the British North America Act. He described also the long discussions between the government and representatives of the mines.

He believed the plan now proposed would meet with general approval of those most concerned. The conferring mining interests had accepted it as a fair way of dealing with the situation.

It is anticipated the tax will bring in a revenue of about \$300,000, which will more than offset the loss in revenue from reduction of the tax on sugar for which the original imposition on gold was designed.

The only official protest against the tax from a provincial government, came from Ontario, the prime minister said. Hon. Charles McCrear, Ontario minister of mines, had spent some time in conferences with the prime minister and the minister of finance, and had arranged meetings between the government and the miners. Other provinces had complained "to the populace" through the press, the prime minister said.

BREAKS SILENCE

Alexander Kerensky, former Premier of Soviet Russia, who recently broke the silence of years to declare Communism a dead issue as practiced in Russia. One of his major reasons for such a contention was that in the struggle between capitalism and labor, the middle class has emerged more powerful than either.

Beat Mollison Record

Aviators Make Australia-England Flight In Less Time

Lympne, England.—Kenneth Waller and Bernard Rubin set a new record for the flight from Australia to England, looping two and one-half hours off the previous mark established by James Mollison.

Waller, pilot instructor of the Cinqueports Flying Club, and Rubin, an Australian flyer, left Port Darwin, Australia, April 23 and landed here after eight and one-half days flying. They had flown to Australia from here, leaving March 22, with the object of surveying the route of the England-Australia air race that will be held late in the summer in connection with the centenary celebration of the state of Victoria.

They landed at Port Darwin, April 8, after being two weeks en route.

Control Meat Production

British Parliamentary Agricultural Committee Submits Plan

London.—A move to control meat production along the lines already suggested for wheat growers was made by the parliamentary agricultural committee here. The main points of their program will be submitted to the government for its approval.

The principal points are: 1. To guarantee the farmer a minimum price. 2. To raise the guarantee funds from an import duty on foreign meat. 3. A measure to raise prices and develop internal production while limiting importation.

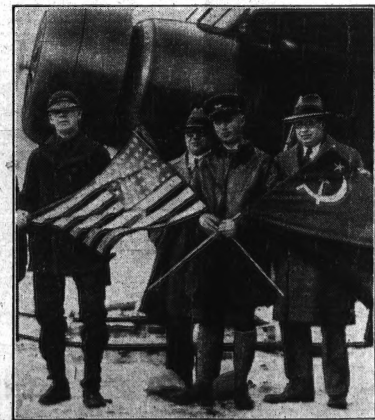

Death Of Evangelist

Toronto.—Rev. Dr. H. T. Crossley, former member of the international-known evangelistic team of Crossley and Hunter, died here recently at the age of 83.

Prisoners For Soldiers

Nanking.—Gen. Chiang Kai-Shek was lord of China, ordered that all prisoners—numbering tens of thousands—in Chinese prisons be trained as soldiers.

AS NONE HONORED SOVIET FLIER

Commander Maurits Sillpov, Soviet airman, received flags of the Soviet Republic and the United States from the Chamber of Commerce, Nome, Alaska, before he boarded his plane for a flight to the ice pack where 101 survivors of the ill-fated freighter Chelyuskin were awaiting rescue. Sillpov received highest Soviet honors for his gallant work in rescuing the castaways.

Imperial Press Conference

Eight Canadian Delegates To Go To South Africa

Toronto.—Canada will be invited to send eight delegates to the fifth imperial press conference, it was announced at the annual meeting of the Canadian section, Empire Press Union, here. The conference will be held in the Union of South Africa from May 6 to June 21, 1935.

Details of the trip were explained at a meeting, held under the chairmanship of J. H. Woods, editor of the Calgary Herald. There will be a tour of South Africa and Rhodesia, the delegates to be the guests of the South African section. Preliminary arrangements for selection of delegates were left in the hands of the executive.

Reports presented at the meeting showed the Canadian section to be in flourishing condition with membership well maintained. The new letter issued monthly and mailed to all members of the Empire Press Union throughout the British Empire, continues to be well received and is doing good service in making Canadian affairs better known in other Empire countries.

Words of appreciation were voiced also of the Australian news letter, which is doing a similar service for Australia in Canada and elsewhere.

Lumber Exports Heavy

March Shipments To British Market Valued At \$2,225,000

London.—Canada, during March led all countries as an exporter of lumber to the British market.

Board of Trade returns show total British imports of wood and timber in that month as \$2,225,000, of which a quarter, or \$2,225,000 worth, came from Canada.

The March imports from the Dominion were three times as great as in March a year ago, five times as big as in March of 1932, the respective figures being \$665,000 and \$460,000.

CONTROL BOARD FOR BAKERIES IS SUGGESTED

Ottawa.—Creation of a Dominion licensing board with powers designed to meet the problem of chain or mill-controlled bakeries and bread sales by chain or departmental stores was proposed to the Stevens price spreads and mass buying parliamentary probe by Mark Bredin, president of Bredin Bread Co., Toronto.

Submission of baking codes proposed by the industry in British Columbia and Saint John, N.B., was made earlier in the day. Mill controlled baking establishments were attacked by James Dempster, Toronto baker. Charges that ruthless competition by chain and department stores had seriously disorganized the bread business in British Columbia were made by R. W. Ward, Vancouver, vice-president, Canadian Bakers, Ltd.

The board which Mr. Bredin advocated would have to be clothed with the following powers:

1. To require all bakers, jobbers and independent distributors of bread to operate under a license.
2. Issue and continuance of such license to be conditional upon compliance with regulations from time to time promulgated by such licensing body.
3. The setting up of an advisory body representative of the bakers to assist the licensing body in carrying out its functions, such advisory body consisting of representatives of provincial associations of the baking industry.
4. The regulation of the price of bread in co-operation with the board or committee set up in provision three, such price to have as its basis the cost of raw materials, all production, delivery and other costs including a fair scale of wages with minimum wages and maximum hours as adopted, and to be enforced by the properly constituted authorities.
5. To compel a high standard of cleanliness and sanitation; adherence to provincial standards of weights.
6. The definition and prevention of unfair trade practices.
7. The elimination of the spread between the retail price at chain and other stores and retail wagon price.
8. The proper consideration of the consumer's interest in the performance of all its functions.

The capital set-up of a number of baking establishments would be taken up at a later stage of the inquiry, Hon. H. H. Stevens, committee chairman intimated.

WORK OF SEEDING IN THE WEST IS WELL UNDER WAY

Montreal.—Wide variations in seasonal conditions and in the progress of agricultural operations in Canada are noted in the first 1934 crop report of the Bank of Montreal.

Spring is three weeks earlier than usual in British Columbia, as demonstrated by vegetation and well advanced seeding. In the prairies, seeding is fairly general. In Ontario, however, farming operations are two weeks later than average.

Present indications on the prairies point to a reduced wheat acreage and an increase in fodder crops. Details in respect to the western provinces follow:

Prairie provinces: Alberta north-eastern area—Spring work started in mid-April and seeding is about 35 per cent. completed. Alberta south-eastern area—Seeding is well over 50 per cent. completed. Moisture conditions are fair and soil drifting has been checked by rain. Alberta western area—Seeding is general and good seed bed is near completion.

Saskatchewan northern area—Seeding has just started. The seed bed is satisfactory and prospects generally are favorable.

Saskatchewan southern area—Seeding is general with re-seeding necessary in some areas owing to damage from winds. There is sufficient soil moisture for germination, but little reserve, and the top soil is very dry.

Want Free Trade

British Liberals Call For Gradual Abolition Of Protection

Bournemouth, England.—After rejecting a demand for immediate return to free trade, the National Liberal party conference adopted the statement of policy which calls for gradual abolition of protection and condemns the Ottawa trade pact as hampering general trade.

If and when the Liberals return to power the return from the protective system, instituted by the National government two years ago, will be by gradual stages, the conference decided in endorsing the report. A Lancashire plea that the party when in power should have Britain give a lead to the world in free trade was rejected.

The official statement of policy called "The Liberal Way" will, however, be rephrased in order to make plain to any doubters that the party still stands for free trade. Included in the policy is a general denunciation of the trade agreements signed by Ottawa on the grounds they materially increased trade barriers in the international field; resulted in no increase in Empire trade volume but merely transferred trade from foreign countries; and tied the hands of Britain in negotiations with foreign countries.

Develop Tourist Traffic

Senate Committee To Study Methods Of Encouraging Travel

Ottawa.—Two senators have been added to the senate committee which will study methods to develop tourist traffic; they are Senator R. B. Horner of Saskatchewan, and Senator C. MacArthur of Prince Edward Island.

At a preliminary meeting it was decided to call J. B. Harkin, commissioner of national parks, as witness at the first meeting. Senator W. H. Dennis of Halifax will preside.

Bill Ready For Discussion

Ottawa.—The government's program of public works for unemployment relief may be introduced into the house before long. In answer to a question by Rt. Hon. Mackenzie King, opposition leader, the prime minister said that the legislation was practically ready, but he thought it advisable to advance bills now before the chamber before introducing new material.

Guelph Agricultural College

Guelph, Ont.—Ontario Agricultural College is celebrating its diamond jubilee, marking 60 years' growth from a school of 30 students into one of the leading institutions of its type in the world.

Conscience Money

Montreal.—The latest sufferer of a guilty conscience money is \$1,000 "conscience money" to the department of income tax at Montreal. The sum is gratefully acknowledged by A. H. Rowland, inspector.

EXCERPTS FROM RE-

PORT ON MUSICAL
FESTIVAL, CRANBROOK

(From The Cranbrook Courier)

There is no doubt about the musical festival movement in East-Kootenay growing, and that as it grows it is improving in quality. This was amply demonstrated here last week with a festival that ran three full days and four evenings. Again the Knights of Pythias can be proud of their achievement. It was a big undertaking with a lot of work involved, but they carried it through with flying colors. As President Sjodin said on the opening night, on the contestants depends the success of the festival, and here again special praise is due not only to the home talent, but to the splendid support of Kimberley and Chapman Camp and to that wonderful aggregation of musicians down in the Crows' Nest Pass towns of Blairmore, Hillcrest, Coleman, Michel-Natal, Bellevue and others.

Professor Collingwood proved himself an able adjudicator, teachers and pupils received advice and constructive criticism that no doubt will be of great value to them in their future work. Like all former adjudicators who have been here, he evinced surprise over the great number of high class artists, both vocalists and instrumentalists, that he found competing.

In the violin solo competition Miss Jean Cruickshank, of Hillcrest, was outstanding this year. Last year, George Kerr, of Blairmore, was the highlight, and he also did well this year.

Roy Upton and his sister, Jean Upton, of Blairmore, carried off the honors in the sonata for violin and piano. There was exceptionally fine execution displayed by all contestants, which was one of the brightest spots in the whole session. All played with skill and technical assurance.

How come so many real fine musicians are to be found in a little spot down in the Pass? One theory is that when the depression came on these splendid young people had a lot of time on their hands and took up fiddling to keep from going crazy. But they have wonderful leaders and teachers down there. Hats off to W. H. Morer, J. E. Upton, W. J. Harris, Miss Carson, and the others with whom we are not familiar. They smiled when they won and they smiled when they lost. These people have real sporting proclivities.

The real battles came with the open orchestra and band competitions. In these there was real keen, but friendly rivalry. Back in the 1932 festival here the Hillcrest string orchestra played without opposition and took the Oddfellow shield home with them. Then in 1933 the Cranbrook orchestra, with William Raven as conductor, came into being and at the festival here won out over the Hillcrest and Blairmore orchestras, and did so again at the Blairmore festival last fall. This year Blairmore and Hillcrest combined their players under the Hillcrest caption, and under the baton of W. H. Morer.

In the contest this year Cranbrook orchestra played two pieces, getting 89 marks for "Valse Triste," and 91 marks, the highest in the festival, for "Pomp and Circumstance." The Hillcrest string orchestra, received 90 marks for the one selection played. The adjudicator said it was a case for a Solomon to decide. One was a strictly string orchestra, while the other had brass, reeds and tympani as well. He was unafraid in his praise for the high standard of work

of both orchestras, and said such organizations were a real asset to the country. In arriving at a decision he gave Hillcrest 80, and divided the 180 of Cranbrook, making 90 each and each to have possession of the shield for six months. Both conductors came forward and shook hands. Then the adjudicator tossed a coin for who should have the shield first. Mr. Raven won, but insisted on his rival conductor, Mr. Morer, taking it first.

The final contest of the festival was for piano sight playing, in which there was but one contestant, Miss Isabel Westrup, of Hillcrest. Mr. Collingwood spoke very highly of Miss Westrup's efforts, stating that he considered her entry the most courageous of the whole festival.

Up to a year or two ago, cows were impounded if found roaming at large within the town of Blairmore. Last week end, nine of these creatures were scattered over the streets and lanes of the town, plus a few goats. Some encouragement for those who have been depending upon carabana hedges to protect their home surroundings!

A revised unemployment relief schedule for Ontario, recently announced, will, it is said, help the miners of Alberta. In the new schedule, Alberta coal is designated for use in relief requirements. This, coupled with the fifty cents dumping duty put on by the Dominion government, is expected to double the total shipments of Alberta coal to Ontario.

The internationally known Rocky Mountains guide, Major Fred Brewster, of Jasper National Park, has invented a novel device for preventing the starting of forest fires by smokers. It consists of a cleverly designed ash tray, which can be attached to the saddles of trail ponies in such a position as to permit the riders to deposit in it pipe ashes, used matches and cigarette stubs, instead of allowing them to drop to the ground.

EIGHTEEN-PAGE ADVERTISING
ESTABLISHMENTS
NEW HIGH RECORD

A newspaper advertisement of more than 18 pages, inserted in the Toronto Daily Star and the Toronto Evening Telegram by the Robert Simpson Company Ltd., on January 31, was acclaimed in Toronto as establishing a new record for the United States and Canada.

The advertisement required a complete section of 18 pages in each paper, and in addition the store used about 600 lines in its regular position. The space amounted to 44,952 lines in each paper, a total of 89,904 lines for the two.

According to Arthur G. Donaldson, of the retail advertising department of the Toronto Star, "this was the largest advertisement published by any store on one day in any daily newspaper in Canada or the United States at any time. In other words, it established a new record on the North American continent for the size of a single daily newspaper advertisement."

Writing to Editor & Publisher before this advertisement appeared, Mr. Donaldson made the claim that two Toronto stores, the Simpson store and the T. Eaton Company, Ltd., are the largest users of daily newspaper space in the world. Commenting on a recent item in Editor & Publisher which reported a 16-page advertising section published in the Boston Evening American by the Houghton-Dutton Company, of Boston, he said:

"It will interest you to know that on November 6, 1931, two Toronto evening newspapers, the Toronto Daily Star and the Evening Telegram, beat this record when each published a 16-page section, with about one-half page additional in regular position, for the Robt. Simpson Co., Ltd., one of Toronto's two big department stores. The Robert Simpson Co., Ltd., also published a 16-page section in each of these papers on Thursday, April 16, 1931, and another, on Tuesday, September 22, 1931. Thus, with the 16 pages in the Boston Evening American, according to your report, measured 35,540 lines, the 16 pages in each of the Toronto papers measured 59,424 lines—nearly a page and a half more space than used in the American."

"For three years the Robt. Simpson Co., Ltd., has been making a feature of sections. Its first special section appeared on Thursday, February 15, 1931, 12 pages; and results from special sections were found to be so uniformly good that it continued to publish them more or less regularly. Its twenty-fifth section appeared on Monday, January 15. It consisted of 12 pages, with two more pages in regular position. The varying sizes of these 25 sections have been two of 8 pages, three of 10 pages, 12 of 12 pages, 5 of 14 pages and three of 16 pages, nearly all supplemented by one or more pages of advertising in the company's regular position."

"And speaking of advertising records, it may be of further interest that no other one store in the entire world is so large a user of daily newspaper space as either one of Toronto's two great department stores, The T. Eaton Co., Ltd., and The Robt. Simpson Co., Ltd."

"In justification of this claim, and as indicative of the huge amount of space they consistently use, measurements show that during the 12 months of 1933 the T. Eaton Co., Ltd., used in the Daily Star and the Evening Telegram a total of 5,463,283 lines; and the Robt. Simpson Co., Ltd., a total of 6,965,246 lines in these two papers."

"This figures out at an average of about 3½ pages for each store in each of the two evening newspapers every publication day in the year. And besides this large linage in the two evening newspapers, these two stores, combined, used about 950,000 lines in each of the two morning newspapers during the year. The linage in all four papers of 12,428,529 lines."—Canadian Printer and Publisher.

REVERSING FALLS
UNIQUE IN CANADA

Twice every twenty-four hours there is witnessed in Saint John, N. B., one of the earth's most curious phenomena. It is the famous reversing falls, which is the subject of quaint Indian tradition and has been described by explorers and writers since the days of Champlain.

On the outskirts of Saint John the St. John river narrows to a width of 350 feet and runs between limestone banks 100 feet high before it empties into the harbor. Down this channel at low tide pours a huge volume of water, running swiftly over the rocky ledges which form the river bed.

The tide in Saint John harbor rises between 20 and 30 feet, and in its ascent it meets and conquers the flow of the river with the result that the current is reversed, and salt water of the Atlantic pours up the falls until it in turn is overcome by the downward current. This happens, of course, twice daily, and at other times the waters are quiet.

Until last year this was supposed to be the only reversing falls in the world. However, a Canadian hydrographical survey discovered a similar curiosity in an uncharted fjord on the southeastern coast of Baffin Land, in the Canadian Arctic.

New Brunswick Indians have a legend that the falls, developed out

of a quarrel between an Indian god, "Glooscap," and a mythological character "Big Beaver." Big Beaver says this tale, built a dam across the river. Glooscap smote it with a mighty rock, and since then the water has run both ways.

PROSPERITY IS RETURNING

"Street cleaners report cigar stubs are not nearly so short."

"Spare tires are beginning to appear on tire racks."

"It is safe to leave children's banks around the house."

"People are saying, 'Won't you stay to dinner?'—as if they meant it."

"Men are getting haircuts almost regularly."

"Women report a gradual improvement in the quality of bridge prizes, and nobody has won a Woolworth lamp shade in several weeks."

Ruling the defendants, Harry Austin, Toronto, and the Canadian Greyhound Lines Limited were both negligent, Mr. Justice J. R. Boyle, in supreme court at Edmonton, awarded general damages totalling \$9,000 and full special damages of \$1,413 to the four plaintiffs, Mrs. Rosalind Mossip, Miss Evanelle Adams, Mrs. Leona Vandemhrink and Kenny McKenzie. They were suing for \$12,000 general damages. Costs of the back in!

A case were levied against the defendants.

EDDIE, THE AD MAN

KID CAN THROW A BUNCH OF HANDBILLS UNDER A CHIEF AND NOBODY MISSES THEM, BUT LET A GARRIBER BOY TRY THAT WITH HIS BATCH OF NEWSPAPERS AND EVERY PATRON ON HIS ROUTE WOULD HOLLER-I JACRAL - ADVERTISE WHERE YOUR AD WILL BE READ

The game warden came across a local veteran fishing at the South Fork. Said the warden, during a chat: "So you were one of the rescuers when that big liner was torpedoed. Did you save—many children?"

"Well," said the vet, "we did save a few, but there were such a bunch of tiny ones, we had to throw 'em back in!"

Where Ideal
Conditions
Prevail

A Canadian citizen touring certain sections of the United States a few years ago, reported on his return that he had passed through several good-sized towns where absolutely ideal business conditions obtained. It had there been possible to so establish a spirit of co-operation and good will, not only among the business and professional men, but also between these and the general public, with the result that the most harmonious relations pervaded these towns. The business men were content to live and let live, to refrain from adopting unfair and unethical business methods, to lend a helping hand to each other in trouble and adversity, and to extend to one another such business patronage as lay in their power. Thus the carpet-bagger invariably got the 'cold shoulder,' for it was firmly established and acknowledged that every order which could be placed in the home town, but which was sent elsewhere, simply drained that community of legitimate revenue, and served but to enrich some other locality. Business left in the home town helps everybody in such town.

Therefore, when considering orders for printing of any kind, remember it can be done expeditiously and well by your home town printer.

BELEVEUE HAPPENINGS

Mrs. Joseph Baskewitch left recently for Ottawa, where she will spend the summer months with her daughter, Mrs. Wilfred Eggleston.

Mrs. John Christie, of Vancouver, has arrived here to spend the summer with Mr. and Mrs. E. W. Christie. Mrs. Christie has not been very well of late, and hopes to recuperate here.

Robert Livett, of Calgary, spent some time in town last week.

Miss Eva Bovio, eldest daughter of Mr. and Mrs. Bovio, who has spent some years at Salt Lake, is visiting her parents here. She is on a month's holiday, and hopes to visit a number of friends during that time.

Mrs. A. Rhodes is a visitor to Calgary this week.

Mr. and Mrs. John Carney, of Kimberley were visitors here over the week end.

Harry Meade was a business visitor to Lethbridge during the week, or to Lethbridge during the week.

The Women's Compensation Board held a session here last week, considering a number of cases.

Mr. and Mrs. George Charlesworth, of Chapel Rock district, spent the week end in town.

Bill Hampson is having his new home fixed up. The improvements include a new fence and a number of beautiful trees.

William Goodwin, senior, spent the week end in town, the guest of his daughter, Mrs. Milnes.

The Oxford group, from Calgary and Lethbridge, were greeted by packed houses here. The services on Sunday concluded at 9 p.m., then they were augmented by the forces from Blairmore and Coleman, when a house party was held and a very pleasant time was had. Revs. W. H. Irwin, of Taber, and W. T. Young, of Calgary, were in charge of the meeting, assisted by others.

Britain's surplus last year totalled \$195,000,000. The chancellor of the exchequer estimates a surplus of \$145,000,000 for present year.

POWERFUL SKIN REMEDY DISCOVERED

This wonderful antiseptic, known all over America as Moore's Emerald Oil, is so efficient in the treatment of skin diseases that the itching of eczema often stops with one application.

A few applications—and the most persistent cases of Eczema often are healed, never to return. Moore's Emerald Oil is safe and pleasant to use and it is so powerful antiseptic and penetrating that even old stubborn cases have yielded to its influence.

Moore's Emerald Oil is the original bottle is sold by druggists everywhere to rid you of stubborn pimples and unsightly skin troubles.

HILLCREST HAPPENINGS

A son was born to Mr. and Mrs. David Lockhart (nee Florence Mackin), of Mountain Park, on Saturday.

A meeting of the Oxford group was held in the United church on Sunday, with Rev. J. Wood in charge. Robert Cruickshank returned Saturday from Edmonton, where he has been attending university.

W. Hutchison was a visitor in Lethbridge last week end. Mrs. A. N. Warner is visiting in Calgary.

Mrs. David Thomas sang several selections over station CFCN last Wednesday evening.

J. Mackie was a visitor to Lethbridge on Sunday.

The Hillcrest footballers were defeated by Bellevue on Saturday.

Mrs. J. Price, senior, is making good progress from her recent illness. The dance on Saturday, sponsored by the Ukrainian Society, was a great success. The Band-Its orchestra was in attendance.

THE MINISTRY

An innocent bystander overheard the conversation of a ministerial committee as they expressed the desired qualifications of a pastor they wanted to engage. A summary of these qualifications include the following: "In doctrine, foursquare; for the scriptures as the word of God; in education, broad and deep; in general intelligence, keen; in patience and endurance, unlimited; in interest in young people, conscious; interest in old people, and invalids; no less eloquent preaching; tactful as pastor a competent organizer, a good mixer; fond of reading; fond of outdoor life, health, perfect; an impressive physique; age, thirty-eight to forty-two. Must have a wife who comes as near to being the ideal preacher's wife as he comes to being the ideal preacher."—EX.

KICKS FOR HIS PAINS

A brakeman, riding the pilot of the engine, saw a little girl walking along the tracks apparently un mindful of the train's approach. As the engine was just about to strike her, he reached out his arm and his leg and swept her off the tracks to safety.

Unfortunately in the rescue the little girl sustained a rather painful bump on her head. Whereupon her folks turned around and used the railroad company for damages and—believe it or not—a small judgment was awarded.

This experience certainly should be a lesson to the big brute. This thing of shoving people out from under the wheels of railroad trains in any old fashion has got to stop. Why—he didn't even know the little girl!—Erie.

A NEW FISH STORY

They were discussing dogs, and the tales were becoming "pretty tall" when one of the group took the lead. "Smith," he said, "had a most intelligent retriever. One night Smith's house caught fire. All was instant confusion. Old Smith and wife flew for the children and bundled them out in quick order.

Alas, one of them had been left behind. But up jumped the dog, rushed into the house, and soon reappeared with the missing child. Every one was saved; but lo and behold through the flames again. What did the dog want? No one knew. Presently the noble animal reappeared, scorched and burned, with—what do you think?

"Give it up," cried the eager listeners.

"With the fire insurance policy, wrapped in a damp towel, gentlemen."

Alas Graham cup—Vocal solo challenge competition, winners of male championship classes in previous festivals; won by J. S. Manson, Cranbrook.

F. H. Delzell cup—Vocal solo challenge competition, winners of ladies' championships; classes previous festivals; won by Mrs. George E. MacDonald, Cranbrook.

Cranbrook Trading Co. shield—Winners Boys' choir—minimum of 10 voices; won by Anglican Church Boys' Choir, of Cranbrook.

PAT'S READY ANSWER PREVENTS JAIL TERM

Philadelphia.—Pat was in the police lineup as usual.

"What's the charge?" asked Magistrate Holland, "the usual thing?"

"Yes," said the arresting officer, "and I'm tired of it. Every time he gets any money he gets drunk, and every time he gets drunk, he starts fighting. I wish you'd lock him up."

"That's right," volunteered another patrolman, "he's an awful pest on my beat, too. He ought to go away for a while."

"Well," said Judge Holland, "you don't seem to have many friends around here. What do you say for yourself?"

"Judge," said Pat, "just as long as you're my friend, I don't give a Tinker's dam for these gentlemen." "Discharged. Next case."

The prize for the world's worst poem goes to a Blairmoreite. Here it is: "Last night I saw upon the stair A man who wasn't even there, He wasn't there again today, Gee, whiz! I wish he'd go away."

A woman had gone to Scotland for the first time in her life. On her return to London she expressed herself as quite surprised at the comparative civilization of the North.

"Our English customers are spreading rapidly," she said, "even in a little town like St. Andrew's they have a nice golf course."—Punch.

TOOK THE WHEEL

There are 5 cars to choose from in the low-price field . . . YET MORE THAN 1 OUT OF 3 BUYERS PICK NEW 1934 CHEVROLETS

NATURALLY we are proud to have created Canada's most popular automobile. All the more so because people are counting values—comparing quality—checking on delivered prices—as never before in automobile history.

Chevrolet has always been stronger on proof of value than on mere "claims." People recognize this in Chevrolet's many exclusive features: Fully-enclosed, protected "Knee-Action," Body by Fisher, valve-in-head six cylinder engine with Blue Flame head, Fisher built-in Ventilation, exclusive YK frame, to mention just a few.

And just as long as motorists go on comparing, checking and testing, Chevrolet will hold and increase its great sales leadership. Because Chevrolet refuses to compromise on quality. The industry's leading engineers . . . the great General Motors Proving Ground . . . and an organization with "an ear to the ground and an eye to the future" . . . take care of that. Low delivered prices—easy GMAC terms.

WORLD HAPPENINGS BRIEFLY TOLD

Leon Trotsky may become a permanent "unwelcome guest" of France if he has been revealed, because no other country will take him.

Negotiations are proceeding satisfactorily for construction of a new 7,000-ton cruiser for the royal Australian navy.

Without discussion the House of Commons voted \$2,250 to Jack Miner, famous Kingsville, Ont., naturalist, to enable him to carry on his bird sanctuary.

The season's trans-Atlantic passenger service opened at the port of Quebec, April 30, with the arrival of two liners, the Duchess of Atholl and the Montcalm.

A suggestion that 40,000,000 women of all classes, creeds and races share in the 1934 Nobel peace prize has come to the Nobel committee from Viscount Robert Cecil of Chelwood.

Imports duties collected at the port of Ottawa during the month of April amounted to \$301,897, an increase of \$205 as compared with the corresponding month of last year, it was announced.

Inauguration of a regular air mail service between Fort Chippewyan, Alta., and Fond du Lac, Sask., on or about June 12 was announced by the post office department. It will be the first direct service ever operated between the two northern posts.

Subject to approval of the Canadian government, which he said he would approach when his plans are matured and sufficient capital for endowment has been secured, Abbot Chao Kung, former Tibetist Lincolnton, will establish a Buddhist monastery in British Columbia.

The world wheat crop over the summer harvesting area was predicted as being about 1,500,000,000 bushels in 1933. The International Institute of Agriculture, in making this prediction, said that present available figures indicate losses in certain producing countries will be balanced by gains in others.

Stamp Collectors Interested

Thousands of Letters Received For Delivery Over New Air Service In North

Nearly 20,000 stamp collectors from all parts of the world have sent letter covers to be flown in the first flight of the new air service from Prince Albert and Beauval and Isle a la Crosse.

It means at least \$1,500 revenue on the first flight for the post office.

Covers from stamp collectors in New Zealand, Germany, France, England, the South American countries, the United States and every Canadian province have arrived, and await the coveted cancellation stamps and the "cachets," or special marking stamped on each first flight cover.

Extra revenue accrues when collectors put more than the required number of postage stamps on each cover or when the covers are insured to guarantee safe delivery.

The earth travels around the sun at an average speed of 18.52 miles a second or nearly 70,000 miles an hour.

Eighty-six men more than 80 years of age were married in the Old Country in 1932, according to official statistics.

No flour is imported into Switzerland, the domestic mills having a monopoly of this market.

W. N. U. 2045

Will Visit Antipodes

Duke of Gloucester, His Majesty's Third Son, To Make Tour Next Autumn

The government recently announced King George's decision that the Duke of Gloucester, His Majesty's third son, will visit New Zealand and Australia next autumn instead of Prince George, who has just returned from a tour of South Africa.

The king, it was said, reached his decision in view of the heavy strain under which Prince George had been placed during his whirlwind African tour and considered it would be unwise for him to undertake a second important tour sailing for a six months' absence from England.

His Majesty's announcement came after he had consulted the governors-general of New Zealand and Australia. The Duke of Gloucester, who previously had had no opportunity of visiting the Dominions, will represent the king at the centenary celebration of the state of Victoria, Australia. He will carry out the programme which was arranged for Prince George.

Trips Between Planets

Travelling To The Moon On Rays Of Light Is Latest Prophecy

A trip to the moon on rays of light generated by the disintegration of a few pounds of lead was the prophecy of Prof. Auguste Piccard, world famous stratosphere balloonist.

"I am not crazy," the Swiss physicist added. "Rockets are impractical for inter-planetary travelling because they have to carry 20 tons of explosives for the return trip. Piccard said a lecture audience, but the disintegration of matter offers immense possibilities."

Matter dematerialized and transformed into light rays of tremendous energy might permit trips between planets," he went on.

Winnipeg Newspaper Union

By Ruth Rogers

Fire first served man with its warmth and by helping him to repel the attacks of wild beasts. He used it also as a beacon to guide him through the dark forests, and in it he forged his first primitive weapons.

Lavoisier, the great French scientist who lived in the eighteenth century first discovered the real nature of fire and light.

From the days that man first learned to make fire until comparatively recent times, the fires of home and industry were fed only with wood. Then a new fuel was discovered, which marked the beginning of the age of steel. This new fuel was coal.

The change from wood to coal brought about a great change in industry. The importance of coal in the smelting of iron made it the foundation upon which our modern machine age has been built. All the early steam locomotives were fired with wood. The adoption of coal for fuel gave them far greater speed.

Oil has been known to man for several thousand years and was used to some extent in all ages. Heavy oil was first used as a fuel in the oil fields of Russia many years ago and it is there that the first oil-burning stoves were invented. Today oil, instead of coal, is the fuel that drives the mightiest battleships and the swiftest ocean liners.

Super-Giant Stars

Noted Woman Astronomer Has Found And Photographed Fifty

The American Philosophical Society at Philadelphia learns of the discovery of new super-giant stars larger than the sun and 60,000 times as hot. Fifty of these have been found by Miss Annie Jump Cannon, noted Harvard astronomer, in the Large Cloud of Magellan. This cloud is just off there in the sky, a mere 5,000,000,000 miles away. Yet Dr. Cannon produces excellent photographic plates. A new star to an astronomer is a green light to a taxi driver. We get our big moments of impact in different ways that's all.

Little Journeys In Science

FIRE AND FLAME

(By Gordon E. Guest, M.A.)

No one knows when man first kindled fire, but we do know that there was a time when he was not able to do so. The eruption of volcanoes, lightning, and forest fires were his first experiences with the phenomenon, and from these he learned a fear and awe of it, and later he worshipped it. It is not known how primitive man first learned to kindle a fire, but it is thought he did so by friction, a method which is still used in many parts of the world, and which applies to our modern friction match, invented in England a century ago by John Walker.

Fire first served man with its warmth and by helping him to repel the attacks of wild beasts. He used it also as a beacon to guide him through the dark forests, and in it he forged his first primitive weapons.

Lavoisier, the great French scientist who lived in the eighteenth century first discovered the real nature of fire and light.

Ruled Against Farmer

Customs Authorities Decided Cows Were Not Draft Animals

Recent news dispatches told of a Canadian farmer who yoked his cows to wagons and various other wheeled farming implements, and drove them across the border, protesting to the customs authorities that he should not pay duty upon the cows because they were draft animals. The officials looked at the farmer, discovered that several of them gave milk, and ruled against the farmer. Evidently he had the tradition of the American farm that a milk cow is entitled to spend a life of idleness.

The Canadian, however, might have countered with the fact that in many districts of central and southern Europe the peasants recognize no such bovine rights. In the Black Forest of Germany, which besides being a forest district is as well a pretty thickly settled agricultural area, the traveller frequently meets the milk cows yoked in teams and drawing home their own hay. Or on occasion the cow may be usefully yoked with a donkey and, rarely, the cow shares the yoke with a human being, the peasant's hunky son or perhaps his wife, holding up one end while the hitch is contrived to make the docile cow do the pulling.—Detroit News.

Recipes For This Week

(By Betty Barclay)

CHOCOLATE MACAROONS

2 egg whites
1 cup sugar
1/2 teaspoon salt
1/2 teaspoon vanilla
1 1/2 squares unweetened chocolate, melted

1 1/4 cups shredded coconut.

Beat egg whites until foamy throughout; add sugar, 2 tablespoons at a time, beating after each addition until sugar is blended. Then continue beating until mixture will stand in peaks. Add salt and vanilla.

Fold in chocolate; add coconut. Drop from teaspoon on ungreased, heavy paper. Bake in slow oven (325 degrees F.) 20 minutes, or until done. Cool five minutes before removing from paper. Makes two dozen 1 1/2-inch macaroons.

HAM AND CELERY LOAF

1 cup package lime-flavored gelatin

1 1/2 cups warm water

1/2 cup vinegar

1/2 teaspoon salt

1 cup cooked ham, finely chopped

1 1/2 cups celery, finely chopped

1 tablespoon onion, scraped or finely minced

2 sweet pickles, finely chopped

Discard gelatin in warm water. Add vinegar and salt. Chill. When slightly thickened, fold in ham, celery, onion, and pickles. Turn into loaf pan. Chill until firm. Unmold. Serve in slices. Garnish with crisp water cress. Serves 10.

Timber For China

Five carloads of white poplar logs cut by M. M. Connolly of Fresno Lake to fill an order from China for matchwood timber have been shipped from Prince Rupert to the Orient. Twenty more cars of the timber is expected to arrive. The logs run in the vicinity of twenty feet in length with a minimum diameter of ten inches.

SUNDAY SCHOOL LESSON

MAY 13

CHRISTIANITY AND PATRIOTISM

Golden Text: "Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind. This is the great and first commandment. And the second like unto this, Thou shalt love thy neighbor as thyself." Matthew 22:37-39.

Lesson: Matthew 22:1-23:39.

Devotional Reading: Romans 13:8-14.

Explanations And Comments

An Adroit Question and Its Purpose, 22:1-17. The Pharisees were now resolved to bring about the death of Jesus. They had no power to order his death; they must secure from the Roman Governor his death sentence. How was this to be done? They decided to attempt to ensnare him in his talk, hoping to force him to say something which they could report to Pilate, the Governor, as treason. And, indeed, two days later they "labeled" him Pilate. "We found this man perverting our nation, and forbidding to give tribute to Caesar," Luke 23:2.

Then came the question about which, forthwith, they desired above all to say something to him. "What sayest thou? Is it lawful to give tribute unto Caesar, or not?"

A Wise Answer and Its Result, 22:18-22. Jesus understood that back of their complacency and their posing as admirers of fearless straightforwardness was a plot to bring about his death, and he said, "Why make ye trial of me, ye hypocrites?" "Show me the tribute money," he ordered.

"Whose is this image and superscription?" Jesus next asked. "Caesar's," was the answer. "Render unto Caesar the things that are Caesar's," said Jesus, and then added quickly, "and unto God the things that are God's."

The effect of Jesus' answer was to convict both parties of unreality, to awaken every sincere element in the hearts of both, to place the issue at stake on a high plane, to disallow as irrelevant most of the pleas and counterpleas of long controversy between them." (H. Hensley Henson).

Amend Food And Drugs Act

Restrict Sales Of Proprietary Medicines To Be Used For Common Ailments

Sales of medicines advertised to cure cancer, tuberculosis, diabetes and such diseases will be prohibited under an amendment to the Food and Drugs Act to be introduced in the House of Commons. The amendment will restrict the sale of medicines under the act to common ailments.

The use of acetic acid as a substitute for vinegar or the sale of substitute vinegar will not be allowed under a further amendment to the act.

The Proprietary or Patent Medicines Act also will be amended. The amendment will make it compulsory to place a cautionary label on all patent medicines containing potent drugs.

Lord Baden-Powell

Lord Baden-Powell, founder of the Boy Scout movement, whose life was almost despaired of early this year, was able to walk with the aid of two sticks, when he returned from a Mediterranean cruise. Lord Baden-Powell, who underwent internal operations Jan. 4 and 20, is 77 years old.

Hubby—"And why in the dickens isn't dinner ready?"

Wife—"Well, it would be only the rabbit you brought took me three hours to pluck."

Vastness Of The Oceans

Few Grasp Immensity Of These Bodies Of Water

The vastness of the oceans is one of the phases of nature that very few people grasp. Even those who cross the Atlantic and lose sight of land for days together have little realization of what they are passing through. The sight of another steamer on the horizon gives a thrill which is rarely translated into a reflection as to the rarity of such a sight in spite of the multitude of vessels continually crossing the seas. Out of the regular steamer track the rarity of sighting another vessel is extraordinary.

The mysteries of the oceans are the currents which flow like rivers through the general mass of the waters and an example of this has been given recently in the discovery of a life-boat near the North Cape in Norway, that had been abandoned in mid-Atlantic after the rescue of the crew of the British freighter Exeter City which foundered in a heavy gale in January, 1933. After the people had been taken on board a heavy sea swept the life-boat alongside the liner American Merchant, and stove in the forward watertight compartment. It had drifted 2,700 miles in the 15 months. No one apparently had seen it in all that time. It was covered with a coating of sea moss.

Was Good Sprinter

English Girl Runs Across Westminster Bridge In Record Time

Florence Holt, 19-year-old amateur sprinter and member of the House of Commons catering staff, undertook to run across Westminster bridge before Big Ben had finished striking 12. She made it.

Wearing shorts and singlet, she started at the first stroke of noon, ran through the sidewalk traffic and reached the far side before the 10th stroke of the hour. The distance is 252 yards and Big Ben takes 46 seconds to strike 12.

It was in the seventeenth century that the potato was adopted by the Irish as a great food staple.

If a man has a sense of humor he knows when not to get funny.

Ferne's tax rate for 1934 is fifty mills.

Miss Frances Tompkins has arrived home for the summer vacation.

The hardest job a kid faces nowadays is that of learning good manners without seeing any.

M. E. Moscovitch was up from Lethbridge on Friday last, defending a client at the local police court.

A lot of pity is wasted on animals. There are many contented cows, but who ever heard of a contented farmer.

Corporal Mike Moriarty, of the R.C.M.P., Drumheller, left last week on a six weeks' vacation, to be spent in Eastern Canada and the States.

Mrs. F. McLaren and Mr. Alex. May returned Sunday from Vancouver, where they had been to attend the funeral of their mother, Mrs. D. May.

Five barrels of potatoes that had remained in the ground over the winter, were dug up on April 20th in Newfoundland, and reported to be in excellent condition.

A salmon has been timed to swim ten yards in a second.

Peace River is on the rampage, having risen eighty feet in a few days.

F. O. McKenna, prominent Pincher Creek barrister, was a Blairmore visitor on Friday last.

Vernon Stott, representing the Barber-Ellis Company of Alberta, Ltd., was in town from Calgary on Tuesday.

The marriage took place here on April 24th, of Mary, daughter of Mr. and Mrs. L. Rader, of Wardner, B.C., to George Creelman, of Mayhook.

H. T. Halliwell, editor of the Coleman Journal, was a visitor in Blairmore last night, attending a meeting of the executive of the Musical Festival.

Why should Bill Knight bring a lawyer in from so near a place as Calgary, when so many of that profession were available at Ottawa, Halifax and Victoria?

The engagement is announced of Thomas B. son of Mr. and Mrs. David Staples, of Belmont, Nova Scotia, to Amelia Mortez, of Olds, Alberta, the wedding to take place this month.

Il Sig. Rinaldi Romeo di Blairmore, Domenica fece una visita a Natal. Il Sig. Rinaldi e' il proprietario del cinematografo di Coleman e pure quello di Blairmore.—Michel-Natal Observer.

Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

Victoria Day will be celebrated at Macleod and Cowley.

On and after May the 15th, the Calgary Albertan will be an evening paper.

The charge against Charles Ellis, a Newfoundland mail clerk, of stamp forgery, has been withdrawn.

The appointment of Joseph E. Gillis as judge of the juvenile court of the Town of Blairmore has been gazetted.

Nineteen years ago last Monday, the Cunard liner Lusitania was torpedoed and sunk off the coast of Ireland by a German submarine.

The regular monthly meeting of Crows' Nest Chapter of the I.O.G.E. will be held at the home of Mrs. D. Fraser on Monday, May 14th, at 7:30 p.m. General business.

Ronald Bottrell and R. Blackwood, escaped convicts from Lethbridge jail, were captured in Calgary on Tuesday, following a trip made to Cranbrook and return in a stolen auto.

The Pythian Sisters will hold an afternoon Tea and Sale of Home Cooking, and also have a table of plain and fancy sewing, in the Lodge hall, Blairmore, on Saturday, May 26th, from 3 to 6. Everybody welcome.

The minimum hourly wages for skilled labor in the printing trades in Canada range from 30 cents to 67, and for photo engravers \$1.00. Compare that with the pick and shovel relief rate in Blairmore not long since.

Monday, as Arbor Day, was observed only by the bank and liquor store in Blairmore. It was dedicated to the planting of trees and shrubs, and beautification of premises, and parks—no little thought of nowadays that it might as well be dropped.

Four hundred and fifty Irish Boy Scout pilgrims were received at the Vatican by Pope Pius on St. Patrick's Day. Addressing the boys, His Holiness gave them as a watchword that they "must endeavor ever to be better, ever to do more for Christ, for His church and for their own sanctification."

That piece of the statutes that requires a certain day in the spring to be set aside and observed as Arbor Day, in which the people of the country should plant trees, do landscaping and generally fix up and beautify surroundings, is observed about as much as any other legislation. Show us the solitary tree planted in the Crows' Nest Pass on Arbor Day with any thought of the day as such.

Cole's theatre announces a return engagement of "The Conquering Sex" starring Max Baer, Primo Carnera, Jack Dempsey, Myrna Loy. The picture proved so popular on its first presentation that the management has decided to bring it back. It will be shown one night only, Wednesday, May 16th, two performances, 7:30 and 9:30. Anyone who likes a good show should take advantage of this. We know you'll see more than satisfied.

I cacciatori Beny Volpatti e Attale Tamasso, Domenica scorsa mentre cacciavano per le lepri, nel sottopiano di Sparwood, videro un uccello selvaggio sopra di loro, di dimensioni sproporzionate, che credettero fosse un Aquila così ambedue i cacciatori spararono sopra l'uccello rapace, che colpito ad una ala cadde, con sorpresa dei cacciatori, che invece di un Aquila era un Falco, di sei piedi di ali di dimensioni, e se lo portarono come trofeo a casa loro.—Michel-Natal Observer.

Two-roomed shack for rent May 15th. Apply to The Enterprise.

Some circulars announce: "We aim at 100 per cent circulation." Well, who doesn't?

R. M. McGregor, credit manager for P. Burns & Co., Ltd., was in town from Calgary last week end.

Ross McGibbon and Theodore Cairns accompanied Peter Farmer to Blairmore from Edmonton during the week.

Mrs. A. B. Steeves arrived home to Cranbrook recently from New York, where she had been visiting with her sister for a few months.

Boy Scouts of the Empire and some forty countries are expected to attend the jamboree to be held in Australia on December the 27th to January the 7th.

Among those receiving university degrees at Edmonton were Misses Margaret Menzies Allan, of Coleman, and Marion Mae Mangan, of Fernie, both receiving their B.A.

FOR RENT—Two Bedrooms vacant. Children over 5 taken. Good locality. Garage free. Half-mile from Creston Depot.—Write Mrs. John Watson, Creston, B.C. [m3-10.]

At the tea and candy sale held by the Girl Guides of Lundbreck on Saturday last, Mrs. G. C. Davies, of Lundbreck, was the lucky winner of the pretty star quilt, made by the girls.

EYES EXAMINED at the Blairmore Pharmacy on Saturday afternoon, June 2nd, E. J. ANDERSON, B.Sc., in attendance. Free demonstration of the new Amplified Acousticon Aid to hearing.

The Castle River Club has been incorporated under the Societies Act, 1924. The objects of the society are to conduct a club for educational purposes, including the encouragement of mixed farming and the breeding of live stock.

Recent regulations are placing a heavy burden upon licensed hotels. Although beer licenses were reduced from \$210.00 to \$150.00, a new 4 per cent tax was added to all sales. On an average business this sales tax would run to about \$190.00 a year, which means an actual increase of about \$130.

In the local police court last week, Danny Mills was ordered to pay costs of court in one assault case amounting to \$12.00. In another action, charged with causing bodily harm to John Baird, he was sent up for trial at the next sitting of the Supreme Court at Macleod, and was released on bail on his own recognizance in the sum of \$500.

The death of Richard Galwey, old timer of the Mayeroff district, occurred in a Calgary hospital on Thursday last, at the age of 59 years. He was born in Ireland, and was a member of the I.O.O.F. A sister, Maud, in Ireland, and a cousin, Miss Anne Wilson, of Macleod, survive. The remains were brought to Lundbreck on Friday night, and interment took place in the Livingstone cemetery on Sunday.

The town council will build plank sidewalks along certain thoroughfares in town, which reminds us of the first real ten-foot plank walk, built on Victoria Street in 1914 between Eighth and Ninth Avenues by Messrs. D. A. Sinclair and W. J. Bartlett—250 feet of well-built walk at absolutely no cost to the town of Blairmore. A few years ago this walk was moved away to give place to concrete and we also paid our portion of the cost of the improved walk and were never even thanked for the plank that was taken away.

The Al. G. Barnes circus will visit Lethbridge on June 14th.

Sergt. Forsland, R.C.M.P., has been promoted and transferred from Vulcan to Edmonton.

The heading of a medicine ad reads: "It's Liver That Makes You Feel So Wretched." Vell vy eat it?

Rev. Walter Cox, former editor of the Dominion Independent Oddfellow and Rebekah, died at Andover, England, on March the 2nd.

Miss Charlotte McEachern, formerly of the Coleman teaching staff, has been elected president of the Lethbridge local of the Alberta Teachers' Alliance.

All unions were reported represented at the Natal picnic a couple of weeks ago. It was meant to say "all Murphy unions."—Just two or so in the Pass.

Col. Hugh Clark remarks: It is from a woman the suggestion comes that women should not be allowed to talk over the radio. We know of no other place where they can be prevented.

Rev. Dr. Peter Bryce, of Toronto, will preach at the Pincher Creek United church on Sunday afternoon next at 3 o'clock. In the morning he will occupy the pulpit of Knox United, Lethbridge, and in the evening at Bellevue.

Ira Clark, assistant K.R.S. of the Supreme Lodge, Knights of Pythias of Minneapolis, Minn., will visit local district lodges during the latter part of this month, and expects to be in Blairmore on May 27th. Further particulars later.

We regret to learn that Jean, daughter of Mr. and Mrs. Ted Elliott, of Chapman Camp, B.C., met with an accident recently that will confine her to her home for some time. Jean had the misfortune to fall and injure her shoulder.

A prominent divinity doctor conducted a service in Ontario on Sunday last, taking as his subject: "Behold, I am with you for but a short while." A lady soloist sang beautifully: "O God our help in ages past," and the choir sang as a closing item: "Thank God, the day is over!"
